Conspiracy theories--everybody has one. The difference with this conspiracy is that it's all too real. David Baldacci's *The Camel Club* takes readers inside the Beltway as four unlikely misfits struggle not only to survive, but to save their president and their country from a plot that will lead to nuclear disaster.

#### From Publishers Weekly

Arab terrorists, nuclear threat and political perfidy drive bestselling Baldacci's latest. The Camel Club, a four-man group of Washington, D.C., misfits (their leader has taken the ironic pseudonym "Oliver Stone") gathers every week to discuss political conspiracies they believe exist and what actions they might take. One night, while meeting on Roosevelt Island in the middle of the Potomac River, club members witness the murder of Secret Service employee Patrick Johnson, thus thrusting the wacky crew into the middle of a bigger conspiracy than they could ever have imagined. There are scores of characters and subplots to keep track of while the story veers back and forth between venues and villains, forcing readers to remain alert yet patient while awaiting the high-concept payoff. When it finally appears, it's a doozy: kidnappers who harm no one and are reasonable people with a legitimate gripe bring the U.S. to the verge of nuking Damascus. Baldacci maintains interest during the long buildup by supplying fascinating historical facts, amusing characters, high-tech spy lore and the backstories of his super agents, both good and evil. As fans of this writer know, years of experience have made him an author who promises a good story and then delivers it. (Oct. 25)

#### From Booklist

Baldacci returns to Washington D.C., the setting of his first hit, *Absolute Power* (1996). The Camel Club is made up of four middle-aged men: Stone (in homage to the director Oliver Stone), Milton, Reuben, and Caleb, whose lives have led them to be suspicious of the government and politicians in general. Their late-night excursions mainly consist of White House stakeouts, until the night they discover two men carrying

another man while on Roosevelt Island and killing him while making it look like a suicide. The men believe a conspiracy is afoot, and this time, they're right on the money. Secret Service agent Alex Ford, who has a passing acquaintance with Stone, is called into to investigate the death of the man, who happens to be a Secret Service agent, Patrick Johnson. Johnson was supposedly living far above his means and may have had drug connections, but Ford isn't convinced Johnson took his own life. The Camel Club is conducting their own investigation, and before long they realize they've got a massive conspiracy on their hands, one that could affect the global political arena. Baldacci is a master at building suspense, and the conclusion of his latest novel will leave readers breathless. *Kristine Huntley*
