## **Editorial Review**

### **About the Author**

Tom Barnaby is a Microsoft consultant, C# "Most Valuable Professional," national speaker, and author of several .NET books including Distributed .NET Programming in C#, and Applied .NET Attributes. In his spare time, Tom enjoys playing with his two sons, watching movies in the family home theater room, and banging out power chords on his electric guitar with the volume turned to 11.

## **Users Review**

### **From reader reviews:**

#### **Gary Kruse:**

In other case, little people like to read book Distributed .NET Programming in VB .NET. You can choose the best book if you'd prefer reading a book. Provided that we know about how is important any book Distributed .NET Programming in VB .NET. You can add information and of course you can around the world by a book. Absolutely right, because from book you can learn everything! From your country until foreign or abroad you will be known. About simple point until wonderful thing you may know that. In this era, we could open a book or perhaps searching by internet device. It is called e-book. You can use it when you feel uninterested to go to the library. Let's examine.

#### **Daniel Bravo:**

Now a day individuals who Living in the era just where everything reachable by interact with the internet and the resources included can be true or not need people to be aware of each information they get. How people have to be smart in getting any information nowadays? Of course the reply is reading a book.
