Essential Calculus (Available Titles CengageNOW) By James Stewart

This book is a response to those instructors who feel that calculus textbooks are too big. In writing the book James Stewart asked himself: What is essential for a three-semester calculus course for scientists and engineers? Stewart's **ESSENTIAL CALCULUS** offers a concise approach to teaching calculus that focuses on major concepts and supports those concepts with precise definitions, patient explanations, and carefully graded problems. Essential Calculus is only 850 pages—two-thirds the size of Stewart's other calculus texts (**CALCULUS**, Fifth Edition and **CALCULUS, EARLY TRANSCENDENTALS**, Fifth Edition)—and yet it contains almost all of the same topics. The author achieved this relative brevity mainly by condensing the exposition and by putting some of the features on the website, www.StewartCalculus.com. Despite the reduced size of the book, there is still a modern flavor: Conceptual understanding and technology are not neglected, though they are not as prominent as in Stewart's other books. **ESSENTIAL CALCULUS** has been written with the same attention to detail, eye for innovation, and meticulous accuracy that have made Stewart's textbooks the best-selling calculus texts in the world.

Editorial Review

About the Author

The late James Stewart received his M.S. from Stanford University and his Ph.D. from the University of Toronto. He did research at the University of London and was influenced by the famous mathematician George Polya at Stanford University. Stewart was most recently Professor of Mathematics at McMaster University, and his research field was harmonic analysis. Stewart was the author of a best-selling calculus textbook series published by Cengage Learning, including CALCULUS, CALCULUS: EARLY TRANSCENDENTALS, and CALCULUS: CONCEPTS AND CONTEXTS, as well as a series of precalculus texts.

Users Review

From reader reviews:

Alysa Appel:

What do you in relation to book? It is not important with you? Or just adding material when you require something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to perform others business, it is make you feel bored faster. And you have time? What did you do? Every person has many questions above. They need to answer that question due to the fact just their can do this. It said that about book. Book is familiar on every person. Yes, it is suitable. Because start from on jardín de infancia until university need this particular Essential Calculus (Available Titles CengageNOW) to read.

Christian Rice:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a information or any news even restricted. What people must be consider while those information which is inside the former life are challenging be find than now is taking seriously which one is appropriate to believe or which one the actual resource are convinced.
