MEDITATIONS ON HUNTING is a broad examination of the condition of life. "The life that we are given has its minutes numbered, and in addition it is given to us empty...we have to fill it on our own, that is we have to occupy it one way or another...." Ortega y Gasset also discusses the evolution of hunting and carefully examines its implications to the hunter--its total absorption of mind and body, its atavistic reverberations, its animalistic fulfillments and its tonic immersion in nature.

## **Editorial Review**

### **Review**

If you haven't read this legendary little book, you might wonder if an essay originally written by a Spanish philosopher as an introduction to a friend's big game hunting memoirs could have any relevance to a modern bird hunter. I'd say it's not only "relevant", it's absolutely essential reading for any thoughtful hunter and fisherman. ...and now Wilderness Adventures has brought out what I think will be the standard: a beautiful slipcased edition, bound in fine cloth, with excellent pencil illustrations by Eldridge Hardie and a new foreword by Datus Proper. It's the one to own. -- *Steve Bodio, Shooting Sportsman*
