Skippy Dies: A Novel By Paul Murray

Why does Skippy, a fourteen-year-old boy at Dublin's venerable Seabrook College, end up dead on the floor of the local doughnut shop?

Could it have something to do with his friend Ruprecht Van Doren, an overweight genius who is determined to open a portal into a parallel universe using ten-dimensional string theory?

Could it involve Carl, the teenage drug dealer and borderline psychotic who is Skippy's rival in love?

Or could "the Automator"—the ruthless, smooth-talking headmaster intent on modernizing the school—have something to hide?

Why Skippy dies and what happens next is the subject of this dazzling and uproarious novel, unraveling a mystery that links the boys of Seabrook College to their parents and teachers in ways nobody could have imagined. With a cast of characters that ranges from hip-hop-loving fourteen-year-old Eoin "MC Sexecutioner" Flynn to basketballplaying midget Philip Kilfether, packed with questions and answers on everything from Ritalin, to M-theory, to bungee jumping, to the hidden meaning of the poetry of Robert Frost, *Skippy Dies* is a heartfelt, hilarious portrait of the pain, joy, and occasional beauty of adolescence, and a tragic depiction of a world always happy to sacrifice its weakest members. As the twenty-first century enters its teenage years, this is a breathtaking novel from a young writer who will come to define his generation.

Editorial Review

Amazon.com Review

Amazon Best Books of the Month, September 2010: Seabrook College is an all-boys Catholic prep school in contemporary Dublin, where the founding Fathers flounder under a new administration obsessed with the school's "brand" and teachers vacillate between fear and apathy when faced with rooms full of texting, hyper-tense, hormone-fueled boys. It's the boys--and one boy in particular--that give this raucous, tender novel its emotional kick. Daniel "Skippy" Juster is a breed apart from his friends, more sensitive than any of them, but never visibly reactive to the pressures that weigh heavily on him. The events that lead to his untimely (though tragicomic) death unfold scene by scene, in a chorus of perfectly executed moments that are powerful enough to make you laugh and weep at once. When you read *Skippy Dies*, you won't necessarily feel like a teenager again--and in fact, may realize you'd never want to--but you'll certainly appreciate how painful, exhilarating, and confusing it still is to grow up. --Anne Bartholomew

Starred Review It's no spoiler to acknowledge that Skippy, the main character in Murray's second novel, does indeed die, since the boy is a goner by page 5 of the prologue. Following his character's untimely demise, Murray takes the reader back in time to learn more about the sweetly engaging Skippy—a 14-year-old student at a historic Catholic boys' school in Dublin—and his friends Ruprecht, a near genius who is passionately interested in string theory; Mario, a self-styled lothario; and Dennis, the resident cynic. We also meet the girl with whom Skippy is hopelessly in love, Lori, and his bête noire, Carl, a drug-dealing, psychopathic fellow student who is also in love with Lori. The faculty have their innings, too, especially the history teacher Howard (the Coward) Fallon, who has also fallen in love—he with the alluring substitute teacher Miss McIntyre. And then there is the truly dreadful assistant principal, Greg Costigan. In this darkly comic novel of adolescence (in some cases arrested), we also learn about the unexpected consequences of Skippy's death, something of contemporary Irish life, and a great deal about the intersections of science and metaphysics and the ineluctable interconnectedness of the past and the present. At 672 pages, this is an extremely ambitious and complex novel, filled with parallels, with sometimes recondite references to Irish folklore, with quantum physics, and with much more. Hilarious, haunting, and heartbreaking, it is inarguably among the most memorable novels of the year to date. --Michael Cart

Review

Praise for *Skippy Dies*:

"Extravagantly entertaining . . . One of the great pleasures of this novel is how confidently [Paul Murray] addresses such disparate topics as quantum physics, video games, early-20th-century mysticism, celebrity infatuation, drug dealing, Irish folklore and pornography . . . Six hundred sixty-one pages may seem like a lot to devote to a bunch of flatulence-obsessed kids, but that daunting length is part and parcel of the cause to which *Skippy Dies*, in the end, is most devoted. Teenagers, though they may not always act like it, are human beings, and their sadness and loneliness (and their triumphs, no matter how temporary) are as momentous as any adult's. And novels about them—if they're as smart and funny and touching as *Skippy Dies*—can be just as long as they like." —Dan Kois, *The New York Times Book Review*

"Murray's humor and inventiveness never flag. And despite a serious theme—what happens to boys and men when they realize the world isn't the sparkly planetarium they had hoped for—*Skippy Dies* leaves you feeling hopeful and hungry for life. Just not for doughnuts." —*Entertainment Weekly*, Grade: A

“Dazzling . . . If killing your protagonist with more than 600 pages to go sounds audacious, it’s nothing compared with the literary feats Murray pulls off in this hilarious, moving and wise book . . . It’s the *Moby Dick* of Irish prep schools . . . Murray is an expansive writer, bouncing around in time, tense and point of view. He’s unafraid to tempt sentimentality, to write directly at his deep themes, to employ shameless cliffhangers. And he’s talented enough to get away with most of it . . . The mixture of tones is the book’s true triumph, oscillating the banal with the sublime, the silly with the terrifying, the . . .
