### **The War on Leakers: National Security and American Democracy, from Eugene V. Debs to Edward Snowden** By Lloyd C. Gardner

Four days before Pearl Harbor, in December 1941, someone leaked American contingency war plans to the *Chicago Tribune*. The small splash the story made was overwhelmed by the shock waves caused by the Japanese attack on the Pacific fleet anchored in Hawaii—but the ripples never subsided, growing quietly but steadily across the Cold War, Vietnam, the fall of Communism, and into the present.

Ripped from today's headlines, Lloyd C. Gardner's latest book takes a deep dive into the previously unexamined history of national security leakers. *The War on Leakers* joins the growing debate over surveillance and the national security state, bringing to bear the unique perspective of one of our most respected diplomatic historians. Gardner examines how national security leaks have been grappled with over nearly five decades, what the relationship of "leaking" has been to the exercise of American power during and after the Cold War, and the implications of all this for how we should think about the role of leakers and democracy.

Gardner's eye-opening new history asks us to consider why America has invested so much of its resources, technology, and credibility in a system that all but cries out for loyal Americans to leak its secrets.

### Editorial Review

Review

#### Praise for *The War on Leakers*:

"[An] engaging and thoroughly researched investigation."

—*Booklist*

"[*The War on Leakers* is] well-written and tightly-argued. . . A worthwhile contribution to our ongoing national debate about the balance between national security and privacy and about the line between sedition and dissent."

—*Kirkus Reviews*

#### Praise for *Killing Machine*:

"Gardner's treatment of this brave new mode of presidential war-making is admirably comprehensive."

—*Bookforum*

"Gardner delivers an engrossing blow-by-blow account of a decade of fierce debates and painful events that offer excruciating parallels with the Vietnam War."

—*Publishers Weekly* (starred review)

#### Praise for *Three Kings*:

"Gardner's meticulous review and perceptive analysis provides a rich background for understanding what is unfolding today, and is likely to persist."

—Noam Chomsky

About the Author
