## Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) By David S. Kahn

This original volume offers a concise, highly focused review of what high school and beginning college students need to know in order to solve problems in logarithms and exponential functions. Numerous rigorously tested examples and coherent to-the-point explanations, presented in an easy-to-follow format, provide valuable tools for conquering this challenging subject.

The treatment is organized in a way that permits readers to advance sequentially or skip around between chapters. An essential companion volume to the author's *Attacking Trigonometry Problems*, this book will equip students with the skills they will need to successfully approach the problems in logarithms and exponential functions that they will encounter on exams.

### Editorial Review

#### About the Author

David S. Kahn is a Visiting Assistant Professor of Mathematics at the Center for Science and Math Education at Stony Brook University. For more than 20 years, he has taught mathematics to students at a variety of levels. He is the author of *Cracking the AP Calculus AB & BC Exams*, and his other Dover book is *Attacking Trigonometry Problems*.

### Users Review

#### From reader reviews:

##### Steven Weathers:

This Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) are usually reliable for you who want to be described as a successful person, why. The key reason why of this Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) can be one of several great books you must have is actually giving you more than just simple reading food but feed a person with information that probably will shock your earlier knowledge. This book will be handy, you can bring it just about everywhere and whenever your conditions both in e-book and printed people. Beside that this Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) giving you an enormous of experience like rich vocabulary, giving you demo of critical thinking that we realize it useful in your day pastime. So , let's have it and revel in reading.

##### Maureen Daniels:

The book untitled Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) contain a lot of information on this. The writer explains the woman idea with easy way. The language is very clear and understandable all the people, so do certainly not worry, you can easy to read it. The book was authored by famous author. The author will take you in the new age of literary works. You can actually read this book because you can read more your smart phone, or program, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site and order it. Have a nice examine.

##### Michelle Oquinn:

That book can make you to feel relax. This book Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) was colorful and of course has pictures on there. As we know that book Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) has many kinds or type. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and think you are the character on there. Therefore , not at all of book are make you bored, any it can make you feel happy, fun and relax. Try to choose the best book for yourself and try to like reading this.

**Leroy Moore:**

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that studying is not important, boring in addition to can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Attacking Problems in Logarithms and Exponential Functions (Dover Books on Mathematics) can make you feel more interested to read.
