Editorial Review

From the Publisher

Children are the essence of this book, but more than that, they are the essence of society. Creative and intellectual growth are the basis of any educational system, and it is the hope that this book can contribute to an understanding of the importance of this area so as to make the education of children a joyful and meaningful experience.

From the Back Cover

The content is aimed at an understanding and appreciation of children and their art products. It is not the making of products that is the concern of this book, but rather it is the process of art and the value of these experiences to children's learning that is crucial. It is fascinating to realize that as children grow and experience the world in both physical and psychological settings, their physical, mental, and creative growth also change.
