**Podcasting for Learning in Universities (UK Higher Education OUP Humanities & Social Sciences Higher Education OUP)** By Gilly Salmon, Palitha Edirisingha

*Podcasting for Learning in Universities* details several examples of research to practice for the successful use of podcasts in Higher Education, drawing from studies in the UK, Australia and South Africa. The book offers a practical transferable model and guidelines for integrating podcasts in higher education contexts. There is a dedicated website at [www.podcastingsforlearning.com](http://www.podcastingsforlearning.com) with further links and examples.

*"The sheer range of ideas for using podcasts shown by the case studies, will hopefully spark off a number of ideas for ways in which practice in one subject can be re-used in another. Case studies covering reflective learning, active learning, students voices, fieldwork, distance learning and learning transferable skills, show that podcasts are flexible enough as a medium to deliver effective learning outcomes regardless of the subject."*
