## **Editorial Review**

### **Review**

"When I first skimmed this book, I thought it was nothing more than a collage of independent articles—but was I ever wrong! Bob Goldscheider has masterfully pulled together an excellent up-to-date position on licensing best practices in several jurisdictions. The flow is excellent. The information I need is well categorized and it's already proving to be an excellent resource. Bob's choice of authors is exceptional. I personally know all of them and take great stock in their advice that they so willingly provide."

John H. Woodley  
Past President  
Licensing Executives Society

"A comprehensive digest of national and international advances and developments in licensing! Licensing Best Practices is a veritable anthology and compendium on general and industry-specific licensing practices and licensable intellectual property assets. It is a handbook every licensing executive and intellectual property practitioner will want to peruse and keep on their desk!"

Karl F. Jorda  
David Rines Professor of Intellectual Property Law & Industrial Innovation  
Franklin Pierce Law Center  
Concord NH

"It was a great privilege to be given the opportunity to preview this outstanding work. The Licensing Executives Society is the world's leading organisation of technology licensing and management professionals. Bob Goldscheider and his team have drawn upon the rich resources of its members to produce a work of immediate impact and lasting influence on a field of economic endeavor which, as the work itself shows, is expanding exponentially. Don't leave home without it."

Des Ryan  
Consultant (and former Partner)  
Davies Collison Cave, Patent Attorneys and Barristers and Solicitors  
Melbourne, Australia

"This book does serious double duty. It is a helpful primer for business executives and people breaking into the licensing field because it provides broad, often in-depth coverage. It also serves a helpful purpose for seasoned licensing executives and lawyers: first, it endorses many of the things that we do and think and hence serves as a reality check; second, at a deeper level, it proposes techniques and analyses, some of which are necessarily new to each of us because the thing about licensing is that you learn every time out. This book provides learning for even the most seasoned."

Roger M. Milgrim  
Partner  
Paul, Hastings, Janofsky & Walker LLP

"Licensing Best Practices is a necessary book for any person involved in licensing. The book provides valuable, practical insights that can be readily utilized in licensing matters. The comprehensive contents are

set forth in understandable, reader-friendly language. I highly recommend this work."

Michael A. Epstein  
Chair, Intellectual Property and Technology Practice  
Weil, Gotshal & Manges LLP

"Bob Goldscheider's [author and editor] books always combine a solid and even scholarly knowledge of the law with the practicalities of doing business in the complex world of licensing. In this newest work, which will be of value to both industrial and university licensing professionals, the emphasis is on 'how to do it' in many different environments, with each chapter written by renowned experts"
