Editorial Review

About the Author

The Reys were born in Hamburg, Germany. Hans Augusto Rey (1898-1977) met his wife-to-be, Margaret (1906-1996), at a party in her father's home in Germany; when he first caught a glimpse of her, she was sliding down the banister. In their twenties and thirties they lived in Paris and in Rio de Janeiro, where Hans sold bathtubs in villages along the Amazon River. Eventually Cambridge, Massachusetts, became the Reys' home and community. Throughout their lives the Reys created many lively books together, including SPOTTY, PRETZEL, and lift-the-flap books such as HOW DO YOU GET THERE? The manuscript of the first Curious George books was one of the few items the Reys carried with them on their bicycles when they escaped from Paris in 1940. Eventually, they made their way to the United States, and CURIOUS GEORGE was published in 1941. Their incorrigible little monkey has become an American icon, selling millions of books and capturing the hearts of readers everywhere. CURIOUS GEORGE has been published in many languages, including French, German, Japanese, Afrikaans, and Norwegian. Additional Curious George books followed, as well as such other favorites as CECILY G. AND THE NINE MONKEYS and FIND THE CONSTELLATIONS.

Users Review

From reader reviews:

Thomas Barreto:

Book will be written, printed, or created for everything. You can realize everything you want by a book. Book has a different type. As you may know that book is important matter to bring us around the world. Beside that you can your reading ability was fluently. A reserve Curious George's Dinosaur Discovery will make you to end up being smarter. You can feel more confidence if you can know about every little thing. But some of you think that will open or reading a new book make you bored. It is far from make you fun. Why they might be thought like that? Have you in search of best book or suitable book with you?

Calvin Williams:

The book Curious George's Dinosaur Discovery can give more knowledge and information about everything you want. Why must we leave a very important thing like a book Curious George's Dinosaur Discovery? Wide variety you have a different opinion about reserve. But one aim that book can give many details for us. It is absolutely correct. Right now, try to closer with the book. Knowledge or info that you take for that, you are able to give for each other; you may share all of these. Book Curious George's Dinosaur Discovery has simple shape however, you know: it has great and large function for you. You can appearance the enormous world by available and read a guide. So it is very wonderful.

Jerry Jackman:

As people who live in the particular modest era should be change about what going on or information even

knowledge to make all of them keep up with the era that is certainly always change and make progress. Some of you maybe will update themselves by reading through books. It is a good choice for yourself but the problems coming to anyone is you don't know what one you should start with. This Curious George's Dinosaur Discovery is our recommendation to help you keep up with the world. Why, as this book serves what you want and wish in this era.

Garry Brown:

As we know that book is very important thing to add our understanding for everything. By a e-book we can know everything we really wish for. A book is a group of written, printed, illustrated or perhaps blank sheet. Every year has been exactly added. This reserve Curious George's Dinosaur Discovery was filled in relation to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has distinct feel when they reading any book. If you know how big selling point of a book, you can feel enjoy to read a guide. In the modern era like currently, many ways to get book that you simply wanted.
