Aircraft Structures for Engineering Students, Sixth Edition By T.H.G. Megson

Aircraft Structures for Engineering Students, Sixth Edition, is the leading self-contained aircraft structures course text. It covers all fundamental subjects, including elasticity, structural analysis, airworthiness and aeroelasticity. Now in its sixth edition, the author has expanded the book's coverage of analysis and design of composite materials for use in aircraft, and has added new, real-world and design-based examples, along with new end-of-chapter problems of varying complexity.

- Expanded coverage of composite materials and structures
- New practical and design-based examples and problems throughout the text aid understanding and relate concepts to real world applications
- Updated and additional Matlab examples and exercises support use of computational tools in analysis and design
- Available online teaching and learning tools include downloadable Matlab code, solutions manual, and image bank of figures from the book

T.H.G. Megson is a professor emeritus with the Department of Civil Engineering at Leeds University (UK). For Elsevier he has written the market leading Butterworth Heinemann textbooks Aircraft Structures for Engineering Students and Introduction to Aircraft Structural Analysis (a briefer derivative of the aircraft structures book), as well as the text/ref hybrid Structural and Stress Analysis.

Users Review

From reader reviews:

Ramon Hudson:

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite guide and reading a guide. Beside you can solve your problem; you can add your knowledge by the e-book entitled Aircraft Structures for Engineering Students, Sixth Edition. Try to stumble through book Aircraft Structures for Engineering Students, Sixth Edition as your good friend. It means that it can for being your friend when you feel alone and beside that course make you smarter than before. Yeah, it is very fortunate to suit your needs. The book makes you a lot more confidence because you can know anything by the book. So , let me make new experience along with knowledge with this book.
