The death and life of great American cities By Jane Jacobs

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Editorial Review

Review

"The most refreshing, provocative, stimulating and exciting study of this [great problem] which I have seen. It fairly crackles with bright honesty and common sense."—Harrison Salisbury, *The New York Times*"One of the most remarkable books ever written about the city... a *primary* work. The research apparatus is not pretentious—it is the eye and the heart—but it has given us a magnificent study of what gives life and spirit to the city."—William H. Whyte, author of *The Organization Man*

From the Inside Flap

Thirty years after its publication, ***The Death and Life of Great American Cities*** was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

From the Back Cover

"The liveliness of her mind is a joy to behold, as is her common sense and a prose style uncluttered with the litter of empty jargon...her book is well and timely met." - *The Globe and Mail*

"This is vintage Jane Jacobs: quietly authoritative, profoundly accessible, and disdainful of the blinkered viewpoints of academic theorists." - *The Calgary Herald*

"Witty, beautifully written--the culmination of Jacobs' previous thinking, and a step forward that deftly invokes a broader philosophical, even metaphysical, context." - *Publishers Weekly*

"Jane Jacobs has become more than a person. She is an adjective." - *Toronto Life*
