### **Editorial Review**

#### **Review**

"If we could only take one book with us into the 21st century, this is the one I would choose. With lucidity and passion, George Lipsitz reveals that so-called 'color-blind' public policy actually contributes to the maintenance of racism; that white privilege and the demonizing of colored people are two sides of the same coin; and that whiteness is both a huge subsidy as well as a noose around the necks of working-class white folk. His insights into how the color line works in the realm of public policy, politics, and culture, and what we must do to destroy it, can save our lives." -Robin D.G. Kelley, author of Yo' Mama's Disfunctional! Fighting the Culture Wars in Urban America

"George Lipsitz is one of the few historians of the U.S. who commands an audience eager to read what he writes on virtually any subject. What sets his work still more remarkably apart is the discipline never to abuse that trust...This book is a case in point. As rigorous as it is creative, this collection combines a firm grasp of the material roots and consequences of white supremacy with striking cultural criticism. Its extensive treatment of Asian-American and Latino/a experiences breaks decisively with the tendency of studies of whiteness to reduce race to a black-white binary. Few works on whiteness discuss past and present together with such subtlety, care and passion." —David R. Roediger
