# Web Component Development with Zope 3

*By Philipp Weitershausen*

**Web Component Development with Zope 3** By Philipp Weitershausen

Zope is a powerful Python web application platform for developing complex web applications rapidly and collaboratively. With version 3, Zope has been rebuilt on top of a Component Architecture that combines the best ideas available from modern web platforms.

This book focuses on Zope 3, though it also addresses the needs of Zope 2 developers who want to use Zope 3 features as they are backported into the Zope 2 platform. First, the key concepts of Zope and its Component Architecture are introduced. Each of Zope's capabilities is demonstrated by building a sample application and then extending it with more features.

Now in its second edition, the book has been overhauled completely. It has been adapted to the changes and new features in Zope 3 since its first release. The new edition also makes it easier to get started with Zope, incorporating input and suggestions from Zope 3 experts and newcomers alike.

## Editorial Review

Review

"The book can be considered the definitive guide to Zope 3. If the reader is looking for a book containing a set of tutorials on creating and using Web applications, this is a great choice."

Pectu Dana, Timisoara, Romania; ACM Computing Reviews, September 2006

"This book is at once thorough, brief, and concise. This is by far the best technical books i've read on any subject.

I have been interested in Zope for almost a year now, but even as a seasoned programmer I was intimidated by its labrythian complexity. I struggled for weeks reading the free Zope material and learning almost nothing. This book presents the material in an accessible manner while shying away from the horrible puns and awful jokes present in so many technical books. This book would be a bargin at twice its price."

D. Morrione, Hemet, CA, amazon.com

About the Author

The author's computer programming started out as a hobby and became a profession very quickly. He has been a web developer for many years, having opened his own business during high school already. He started his first Zope project almost half a decade ago and has successfully used Zope in innumerable applications since. A few years ago, when the rewrite of Zope was initiated, he became a developer of Zope 3. He has been continually contributing to Zope and related projects itself since. Currently he is studying Physics at the Dresden University of Technology, while continuing the Internet business.

## Users Review

**From reader reviews:**

**James Ponce:**

People live in this new time of lifestyle always attempt to and must have the extra time or they will get large amount of stress from both daily life and work. So , if we ask do people have spare time, we will say absolutely yes. People is human not only a robot. Then we question again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer may unlimited right. Then do you try this one, reading guides. It can be your alternative with spending your spare time, typically the book you have read is actually Web Component Development with Zope 3.

**Jennifer Ruiz:**

Playing with family in the park, coming to see the coastal world or hanging out with friends is thing that usually you may have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Web Component Development with Zope 3, it is possible to enjoy both. It is fine combination right, you still would like to miss it? What kind of hang-out type is it? Oh seriously its mind hangout folks. What? Still don't have it, oh come on its known as reading friends.

**Lavone Anderson:**

Reading a book to be new life style in this year; every people loves to read a book. When you examine a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, and also soon. The Web Component Development with Zope 3 offer you a new experience in reading a book.

**Kim Phillips:**

In this particular era which is the greater particular person or who has ability in doing something more are more valuable than other. Do you want to become certainly one of it? It is just simple way to have that. What you must do is just spending your time almost no but quite enough to have a look at some books. One of several books in the top collection in your reading list is Web Component Development with Zope 3. This book which is qualified as The Hungry Hillsides can get you closer in getting precious person. By looking up and review this book you can get many advantages.
