**Nixon and Kissinger: Partners in Power** By Robert Dallek

Working side by side in the White House, Richard Nixon and Henry Kissinger were two of the most compelling, contradictory, and powerful figures in America in the second half of the twentieth century. While their personalities could hardly have seemed more different, both were largely self-made men, brimming with ambition, driven by their own inner demons, and often ruthless in pursuit of their goals.

Tapping into a wealth of recently declassified archives, Robert Dallek uncovers fascinating details about Nixon and Kissinger's tumultuous personal relationship and brilliantly analyzes their shared roles in monumental historical events—including the nightmare of Vietnam, the unprecedented opening to China, détente with the Soviet Union, the Yom Kippur War in the Middle East, the disastrous overthrow of Allende in Chile, and the scandal of Watergate.

### Editorial Review

#### From Publishers Weekly

This abridged version of Dallek's study of the relationship between a president and his powerful secretary of state is read with precision by Conger. Dallek approved the audiobook's abridgment, which hits the high points of his 750-page doorstopper. Conger hints at imitating the deeply familiar voices of Dallek's twin protagonists without sliding into all-out parody. He drops his voice to a semigrowl for Nixon and adds a muted Central European flavor for Kissinger. For the most part, Conger hits the expected notes, emphasizing and underlining Dallek's narrative with understated flair. Those expecting spine-tingling excitement from the meeting and collision of these two powerful, ultimately destructive political forces may be disappointed by Conger's staid reading, but its allure lies in its solid, unobtrusive nature. Conger pulls listeners into Nixon and Kissinger's struggle by ceding center stage to them.

#### From [Bookmarks Magazine](#)

Armed with voluminous new source material, presidential historian Robert Dallek delivers a comprehensive view of a profoundly influential political duo. Because of their importance, very little in *Nixon and Kissinger* is new. But that doesn't deter reviewers from praising Dallek for this intelligent, wide-ranging synthesis. The author of the best-selling *An Unfinished Life: John F. Kennedy, 1917?1963* (\*\*\*1/2 Sept/Oct 2003) and a two-volume biography of Lyndon Johnson, Dallek details the personal motivations behind Nixon's and Kissinger's public and private machinations, a technique that fascinates most reviewers. A few critics want more political context, but most seem satisfied with this riveting, fleshed-out story of a fascinating time in American history.
