## **Rome the Cosmopolis** From Cambridge University Press

Ancient Rome was a vast and varied metropolis. By coercion and seduction it attracted a population from every province of its empire, as well as foodstuffs, building materials and entertainment from all over the world. What impact did the possession of empire have on the city itself? How did its inhabitants, visitors and subjects comprehend its unique role? How did Rome stay Roman when it encompassed the world? This collection of essays seeks to explore key aspects of the relationship between Rome and its empire.

## **Editorial Review**

### **Review**

"Nine historians offer lively, original, and consistently interesting papers...Rome the Cosmopolis gives us much that is new and memorable." *The Times Literary Supplement*

"'This book is for Keith Hopkins,' begins the preface, and indeed, no finer tribute to a great scholar can be imagined than this collection of essays by students of the professor of ancient history at Cambridge University... An excellent bibliography and full index conclude a work from which students of Rome at every level can learn a great deal. Highly Recommended." *Choice*

"It surely belongs in specialized library collections dealing with antiquity and with Roman history, but any person fascinated by the world and lifestyle of ancient Rome will find this an irresistible book." *Catholic Library World*

"The mark of a good book is that it educates, stimulates, and provokes: the ten essays presented here can be heartily recommended as succeeding in these vital respects." *International History Review*, Richard J. A. Talbert, University of North Carolina at Chapel Hill

"To read several or all of the essays in the span of a single protracted sitting is a particularly stimulating intellectual experience. It is to engage with a variety of scholarly talents, analytical methods and discursive techniques, sometimes complementary, sometimes competing, often dealing with the same ancient data from different perspectives and for different purposes." - Rory B. Egan, University of Manitoba
